REST APIs
Open Source
Next.js
AWS

ABOUT ME

I am a front-end developer with a keen interest in design. Primarily using React and React Native I strive to make websites and apps that balance design and functionality while also remaining accessible. I am currently looking for a new challenge so I can continue to grow and develop my skills in the industry

EXPERIENCE

2020- Redcat Pty Ltd

current *Front-end Web Developer*

- Building and maintaining large scale React and React Native apps using JavaScript and TypeScript.
- Working with the back-end team to enable new features for online ordering across web, apps, kiosks and staff admin portals
- Collaborating with the UI/UX designer and working with Figma to make every interface clean and easy to use, and to keep our products up to date with emerging trends
- Problem solving new features and requests from clients
- Producing clean well-commented code and keeping versions and commits up to date via Github
- Undertaking major projects such as converting the code base from JavaScript to Typescript, adding third party SDKs, automating app deployments, and completely revamping our product to maintain a modern UI
- Updating React and React-Native versions to enable use of the latest features and security available
- Staying organised and up-to-date with the team and the business in an agile environment using Trello, Teams and Click-up for each two week sprint
- Also working as a sustainability officer for the Greencat project to ensure our business is as sustainable as possible. In this role I have introduced 'meat-free Monday', helped organise a volunteer tree planting day and reviewed our company merchandise policy among other projects

2018 - RMIT University - RMIT Connect

2020 *Lead Concierge*

- Responding to Tier 1 enquiries face to face and through LiveChat
- Communicating effectively with students from a range of backgrounds
- Collaborating with team members at different levels to ensure the best experience possible for the students

2019 RMIT University - RMIT Connect

Customer Service Officer

- Responding to a large volume of student enquiries through a range of channels
- Building and maintaining relationships with staff across the university to help solve complex enquiries
- Staying organised to keep on top of long running enquiries with critical deadlines
