REST APIs
Open Source
Next.js
AWS

ABOUT ME

I am a front-end developer with a keen interest in design. Primarily using React and React Native I strive to make websites and apps that balance design and functionality while also remaining accessible. I am currently looking for a new challenge so I can continue to grow and develop my skills in the industry

EXPERIENCE

2023 – current   **Appnative**
Front-end Developer
- Adding new features and improvements to Next.js web-based app and React Native app
- Communicating effectively with designers, developers and the QA team
- Using Bitbucket to commit and push code to build/deploy pipelines as well as peer review other developer code before merging and deploying to production
- Working with additional tools such as React Query, OpenAI, Jotai, and styled-components
- Tracking progress with end of day write ups, stand-up meetings, weekly dev meetings and updating Clickup and Slack where relevant

2020- 2023   **Redcat Pty Ltd**
Front-end Web Developer
- Building and maintaining large scale React and React Native apps using JavaScript and TypeScript.
- Working with the back-end team to enable new features for online ordering across web, apps, kiosks and staff admin portals
- Collaborating with the UI/UX designer and working with Figma to make every interface clean and easy to use, and to keep our products up to date with emerging trends
- Problem solving new features and requests from clients
- Producing clean well-commented code and keeping versions and commits up to date via Github
- Undertaking major projects such as converting the code base from JavaScript to Typescript, adding third party SDKs, automating app deployments, and completely revamping our product to maintain a modern UI
- Updating React and React-Native versions to enable use of the latest features and security available
- Staying organised and up-to-date with the team and the business in an agile environment using Trello, Teams and Click-up for each two week sprint

2018 – 2020   **RMIT University - RMIT Connect**
Lead Concierge
- Responding to Tier 1 enquiries face to face and through LiveChat
- Communicating effectively with students from a range of backgrounds
- Collaborating with team members at different levels to ensure the best experience possible for the students
- Staying organised to keep on top of long running enquiries with critical deadlines
